

DID YOU KNOW:

COVID-19 Update on Pharmacist Approvals

First Nations Inuit Health Branch (FNIHB) has added Tylenol to the list of medications covered through our Non-Insured Health Benefits.

How to Access:

Ask any Pharmacist “Can I get some Tylenol through my FNIHB coverage”. You do not have to be sick to access the Tylenol it is in preparation should you become sick. Tylenol for your children can also be accessed.

Also approved through FNIHB is that Pharmacists are able to do re-fills of some prescriptions that you may be using regularly. Ask your Pharmacist what other medications you are able to access without a prescription from your Doctor.
